

# Number line

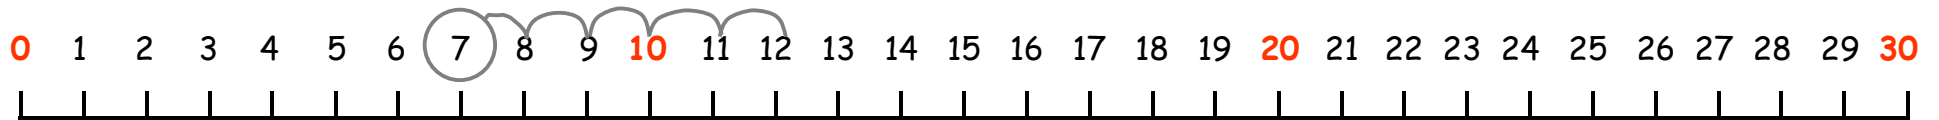

## Ideas for using your number line

Addition:  $7 + 5$  (Start from 7, count on 5 more) **Make sure your child counts ON 5 MORE or BACK 5**  
Subtraction:  $7 - 5$  (Start from 7, count back 5) **places and doesn't count the starting position as one**

Try circling the starting number and make sure each jump lands on a number:

**Language:** *More than/Less than /Add/Plus/Take away/Subtract/Minus*

Count in 2s/5s/10s etc. (Make jumps of 2 etc.) **What are three 2s? How many 5s make 10?**
